

## Screening Saves Lives

- We know that the risk of breast cancer increases as a woman ages.
- Statistics show that 1 in 9 women in Nova Scotia will develop breast cancer in her lifetime.
- A mammogram is a low dose x-ray that can find breast cancer at an early stage, before you or your doctor can feel a lump.
- The results of your mammogram will be mailed to you. Your family doctor will also be sent a copy of the results.
- Early detection saves lives!

## Screening Criteria

- Female
- Resident of Nova Scotia
- 40 year of age or older
- No breast implants
- No previous breast cancer
- No breast symptoms

When you call we will ask questions regarding your:

- Age
- Address
- Date of birth
- Health Card Number, and
- Breast health history
